RESPONSIBILITIES
THE VIRGINIA STATE & LOCAL GOVERNMENT CONFLICT OF INTEREST ACT
Prepared for Members
Executive Directive 6: Governor's Task Force on Information Technology in Health Care

The General Assembly, recognizing that our system of representative government is dependent in part upon (i) citizen legislative members representing fully the public in the legislative process and (ii) its citizens maintaining the highest trust in their public officers and employees, finds and declares that the citizens are entitled to be assured that the judgment of public officers and employees will be guided by a law that defines and prohibits inappropriate conflicts and requires disclosure of economic interests. To that end and for the purpose of establishing a single body of law applicable to all state and local government officers and employees on the subject of conflict of interests, the General Assembly enacts this State and Local Government Conflict of Interests Act so that the standards of conduct for such officers and employees may be uniform throughout the Commonwealth.
